

SAN LUIS OBISPO COUNTY ARCHAEOLOGICAL SOCIETY SUMMER PROGRAM
Join us for an afternoon illustrated program presented by our own Christopher Ryan

RECENT ARCHAEOLOGICAL STUDIES AT VANDENBERG AIR FORCE BASE

Where: SLOCAS Center on Camp San Luis

When: Saturday, July 25, 2015 at 1:00 pm

RSVP: By Wednesday, July 22 to Betsy 543-7831 or Chris 544-0176 or email response to betsyb@charter.net or chris@aol.com

Christopher, as head of the VAFB Cultural Resources Management Team, will share the results of his work at sites revealed during construction mitigation that are shedding new light on Santa Barbara regional prehistory. The most complex excavations ever performed at Vandenberg AFB exposed seven distinct archaeological deposits along San Antonio Creek dating from 1,400 and 8,600 years ago. On South Vandenberg, the oldest known prehistoric site yet identified on the Central Coast mainland dated at 10,660 years ago was encountered during erosion control measures at Sudden Flats.

Please plan to join us for this special event. Family and friends are always welcome. Munchies and drinks will be provided by SLOCAS.

DIRECTIONS:

Coming from San Luis Obispo on Highway 1 - Turn left into Cuesta College at the first signal. Coming from Morro Bay on Highway 1 - Turn right into Cuesta College at the second signal. Stay on Hollister Road and cross the bridge, at the stop sign turn left. We are located in the second building (#1522) on the right.
